

## Spend! Spend! Spend!

- This is a game for 2 to 4 players.
- At the beginning of the game turn over a money card.  
This is the amount of money each player has to spend.
- Each player now has 2 minutes to work out how to spend as much of this money as possible on the following items:

Chewy bar 12p	Chocolate bar 37p	Magazine £1.40	CD £12.99
------------------	----------------------	-------------------	--------------

- The winner is the player who has spent closest to the target amount without over spending.

Any player overspending is out of the game!

**Cut out the money cards before you start**

### Money cards

£5	£10	£20
£50	£75	£100

## Teaching Notes

### Spend! Spend! Spend!

This activity is useful for practising quick mental calculation techniques and estimation techniques.

The player's spending should be checked on a calculator at the end of each game.

The game can be adapted to include different items and prices.

A simplified version of this game 'Spent Up' is a useful starter activity.
